I am a recent graduate in Software Engineering, driven by a strong passion for designing intuitive and user-centered digital experiences. With a solid foundation in front-end development and a sharp eye for detail, I strive to harmonize functionality with aesthetics. My goal as a UI/UX designer is to craft designs that are not only visually compelling but also elevate usability and user satisfaction. Through hands-on experience, I am eager to further refine my skills and contribute to creating impactful and seamless user interactions.
